August 1, 2015

Photo Caption: Foothills Compost™ is now Certified Organic by the Washington State Department of Agriculture (WSDA), a nationally accredited certifier.

Foothills Compost™ teamed up with Georgia Green Industry Association's Landscape Project this year at the Historic Hoke Smith Building on the Athens campus of the University of Georgia. We were one of many businesses that donated products and services. Foothills Compost™ was proud to be a part of this transformation. The project was likened to that of a landscape version of TV's of Extreme Home Makeover.
